

*Manuscript Preparation:*  
**Guidelines for Authors**

TRENDZ – in medical world – a quarterly journal publishes review articles on selected topics, original articles, brief reports on clinical and laboratory observations, case reports of substantive value, invited editorial annotations; invited papers on recent advances, clinical diagnosis, announcements (meetings, courses, job advertisements); summary reports of conferences and book reviews.

**All manuscripts** submitted to the **TRENDZ – in medical world** should not have been published in any form in any other publication, and become the property of the publishers. All manuscripts must be accompanied by the following written statement signed by all the authors.

‘The undersigned author(s) certify (ies) that the article is original, is not under consideration by any other journal, and has not been previously published. All copyright ownership of the manuscript entitled (title of article) is hereby transferred to the publishers of the TRENDZ – in medical world.’

Articles will be edited for style and grammar. Technical jargon is to be kept to a minimum. American spellings are used in the journal.

All statement and opinions expressed in the manuscripts are those of the authors and not those of the editor(s) or publishers. The editor(s) and publishers disclaim any responsibility for such material.

The editor(s) and publishers also do not guarantee, warrant or endorse any product or service advertised in the Journal, nor do they guarantee any claim made by the manufacturer of such product service.

**Form of Manuscript**

**Title page :** This should include the manuscript’s full title, author’s names, institutional affiliations, 5 key words for use by abstracting services, and a running title of no more than 40 characters.

**Abstracts :** On a separate page, provide a summary of not more than 250 labeled purpose, Method, Results and Conclusions.

**Introduction :** This should state the paper’s objective briefly and clearly with reference to previous work.

**Methods :** These should be described in sufficient details

**Results :** These should be described concisely and in logical order. Where possible, use figures or tables to present data rather than text.

**Discussion :** This section should interpret the results and assess their significance in relation to previous work in the field. Avoid speculation not warranted by actual data.

**Acknowledgements :** These should be typed on a separate sheet and kept to a minimum consistent with the requirements of courtesy and disclosure.

**References :** Effective with all new submissions cite references by number in text.

**Proofs and Reprints :** Proofs must be returned within 3 days of receipt. Late return of proofs may cause publication of the article to be delayed. Please check text, tables, legends, and references carefully. It may be necessary to charge for alteration other than correction of printing errors.

An order form for reprints will be included with proofs. Return proofs to:

The Editor
